Professional Summary

Results-driven Frontend Developer specializing in React.js (expert) and TypeScript (proficient), with a record of developing complex, production-grade platforms used by 400+ unique users, including a real-time hospital management app and an AI-powered resume analyzer. Strong background in healthcare analytics, enabling a unique focus on accessibility and user impact. Demonstrated ability in building advanced component architectures, integrating external APIs, and ensuring code quality through rigorous testing and code reviews. Remote collaboration and open-source contributions are showcased in portfolio and code samples: github.com/Zuhaib-dev.

Skills

Expert: HTML5, CSS3, JavaScript (ES6+), React.js, Zustand, Tailwind CSS
Proficient: TypeScript, Next.js, Redux, GraphQL, SCSS/SASS, Webpack, Vite
Familiar: Recharts, Cypress, Jest, React Testing Library, Appwrite, Shadcn UI, GitHub Actions, CI/CD

- **Architecture:** Modular/component patterns, Atomic Design, design system implementation, SSR/SSG, code splitting, lazy loading

- **Testing:** Built and maintained unit, integration, and E2E tests using Jest, Cypress, and React Testing Library (see code on GitHub)

- **APIs/Integration:** REST, GraphQL, Axios, Fetch, third-party services (Twilio, Appwrite)

- **Other:** Accessibility (WCAG/ARIA), responsive/mobile-first design, Git-based collaboration, agile remote teamwork, open-source contributions

Experience

Frontend Developer (Freelance, Remote), TravelwithTehseen   **Jan 2024 – Apr 2024**
Remote
- Built and maintained a responsive travel booking platform (React.js, Zustand, Tailwind CSS), serving 50+ daily visitor sessions.
- Implemented modular component architecture and complex state management for booking workflows.
- Enhanced user experience with animated SVG interfaces, which boosted booking conversions by 20%.
- Coordinated remote user testing and agile releases; led code reviews and Git-based collaboration to ensure consistency and quality.

Frontend Developer (Freelance, Remote), Perfect Health Care   **Aug 2024 – Sep 2024**
Remote
- Developed a healthcare portal supporting 200+ bookings, user authentication, and real-time doctor scheduling (React.js, TypeScript, Zustand).
- Engineered reusable UI components, dynamic form validation, and API integrations with Appwrite and Twilio for secure notifications.
- Deployed at live demo; increased patient digital adoption by 25%.
- Led automated testing (Jest, Cypress) and CI/CD configuration for reliable and maintainable delivery.

Projects

Carepulse: Hospital Management Web Application   **Jun 2025 – Jul 2025**

- Developed a complex hospital management platform (React.js, Zustand, TypeScript) for 100+ daily users, supporting authentication, scalable state, and secure role-based notifications.
- Integrated third-party APIs (Appwrite, Twilio) for real-time communication and automated SMS/email.
- Architected dashboard using dynamic SVG and state-driven animations for actionable insights.
- Maintained Lighthouse accessibility/performance scores of 99/100 with mobile-first responsive design.
- Tested all user flows; code available at: GitHub repository.

Klimate: Modern Weather App   **Mar 2025 – Apr 2025**

- Built a real-time weather analytics app (React + TypeScript) used by 100+ monthly visitors.
- Integrated TanStack Query for parallel API fetching, caching, and error handling; implemented dynamic charts (Recharts).
- Ensured strict type safety and component reusability using TypeScript generics and prop validation.
- Code and full documentation available at: GitHub repository.

Resumind: AI-Powered Resume Analyzer   **Feb 2025 – Mar 2025**

- Created an AI-powered resume optimization tool (Next.js, Zustand, TypeScript), used by 200+ jobseekers to boost ATS shortlisting rates.
- Designed scalable feedback overlays leveraging advanced state management and dynamic accessibility features.
- Implemented automated E2E testing (Cypress) and leveraged GitHub Actions for CI/CD. Full code at: GitHub repository.

Education

Sheryians Coding School (Online Cohort)   **Graduating Apr 2025**

Remote — Bootcamp

- Completed intensive, project-based training in React.js (expert), advanced state management, frontend deployment, accessibility, and automated testing.
- Undertook coursework and complex freelance builds concurrently.

Govt Higher Secondary School Zoohama   **Graduated Mar 2025**

Zoohama, Chadoora

- Class 12, Medical Stream (Biology, Physics, Chemistry) — 80.1%. Applied scientific research and analytical rigor to software engineering challenges.

Continuous Learning

- Modern React with Redux — Sheryians, 2024
- Responsive Web Design — freeCodeCamp, 2024
- JavaScript Algorithms and Data Structures — freeCodeCamp, ongoing
- Self-learning: Advanced CSS animations, Next.js, GraphQL, modern frontend architecture

Extracurricular

- Volunteer instructor for web workshops; taught CSS/HTML to local students and peers.
- Active open source contributor in frontend developer communities.
